»»» Summary

I'm-a one a the best sports players out there ya know. Long-limbs, best reactions. I'm known all aroun' for my skills seein as I am constantly invited to every tennis tournament, soccer cup, and sportin event around. I even got a spot usin' my racket to beat up fools in da smash competitions. They sent me my full invite but I would'a just swept the floor with 'em if they let me go full power at those guys, so I'll hold off on fully fightin' for now. Instead I spend my time cheerin' on my bud Wario and honing my skills to best at whatever event I'm invited to next.

»»» Experience

2000 - now Professional Tennis Player

- » (2000) Helped innovate 3D sports despite not being cordially invited to initial tennis matches. Also helped push inclusivity in Mushroom Kingdom professional sports
- » (2005) Placed Third in the Mushroom Kingdom Power Tour
- » (2018) Achieved title of Tennis Ace, knocked out by Mario and Toad after using performance enhancing drugs

2000 - 2018 Developer Warui Warlords

- » Practiced the art of fighting with the Warui Warlords
- » I didn't get a chance to fully exhibit what I have learned over the last 2 decades and was denied a place where I could fully showcase them. Looking for a structured fighting game to explore these talents, unless you're too scared of me chump.

∞ Single still

- » Where is waru-Daisy?

»»» Education

2013 - 2016 Chairman, Trouble Makers Academy The University

- » Thesis: Purple and orange create a nefarious color combo and is only reserved for bad guys
- » Initially taught masters classes in trash talking, physical beat-downs, and mustache sharpening before becoming headmaster

2009 - 2013 Bachelor's Degree, Aerospace Engineer King Koopa's Villian Lab

- » Thesis: On the long term effects of bomb-omb blasts and lava burns.
- » Discovered that lasting impacts of individuals immediately in the blast zone only suffer cosmetic damage and mild confusion, unless said subjects have some measured life-force which will cause a measured decrease in life-expectancy.
- » Began investigating more lethal forms of explosives, but kicked out of school for anger management issues.
